

The Vertical Cable Caddy

Behind every Professional is a great Caddy!

Vertical

The Vertical Cable Caddy is a revolutionary new product. The ergonomically correct design that has many benefits:

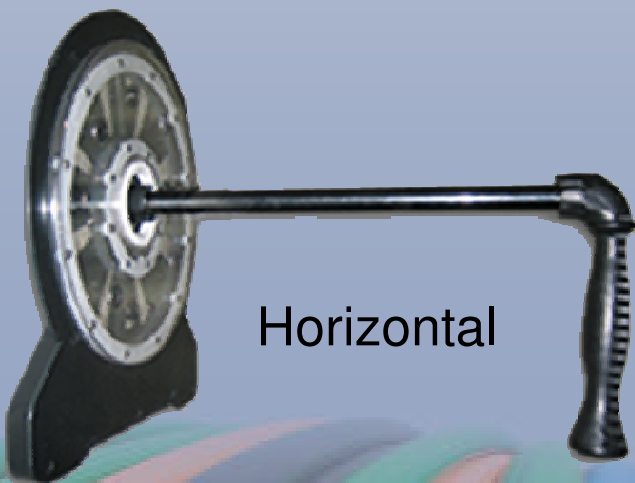

- Increases technician efficiency.
- Dispenses cable/wire in the vertical and horizontal positions.
- Made of high-density polyethylene, the handle and the base will not corrode or rust and will stand up in the worst conditions. The center pole is ½' pipe that has been specially coated to resist rust and corrosion.
- The ergonomic handle allows for a comfortable grip while carrying.
- Reduces the likelihood of damage to customer premises such as walls, floors and entry door glass.
- Requires less storage space inside service vehicle and makes loading cable and unloading cable very simple.
